

BUNDLE *of* 8

Choose from our **BUNDLE of 8**
and build the bundle that's right for you.

Personal Care • Toilet Seat Covers • Air Care • Wipers • Rags • Microfiber • Sorbents • Gloves/Safety

HOSPECO's Bundle of 8 is a complete line. In each of our 8 product categories, we provides quality, breadth of line, innovation, and category expertise.

Our field sales support and total supply chain efficiency can drive your growth and increases your profits through a consolidated supply system that works for you.

Personal Care Products

HOSPECO believes there should be universal access to menstrual care products in every public restroom. We see these products to be as necessary as soap, toilet paper, and paper towels. Finally, ours is the most complete menstrual care system, including product dispensing and safe and sanitary disposal. Our leading branded products, Maxithins® and Tampax®, can be vended in our dual or single dispensers.

Toilet Seat Covers

Studies prove that people overwhelmingly prefer to minimize physical contact with items in the restroom—especially around the toilet. HOSPECO has always offered the most complete line of toilet seat covers and dispensers.

AirWorks® Air Care

HOSPECO's unique Complementary Air Care System reduces malodors in the air from the moment you walk in to the restroom with the same continuous scent. Our system includes the AirWorks® 3.0 Passive Air Care System, AirWorks® Metered Aerosols, and AirWorks® Urinal Screens, Hang Tags and Bowl Clips.

TaskBrand® Wipers

Wipe out dirt, germs, and dust. HOSPECO offers one of the broadest lines of non-woven wiping solutions in the industry, from general purpose to application specific. And with HOSPECO, our unique range of wiper solutions affords customers the lowest cost-in-use for any all-purpose wiper application. Substrates include Scrim/TAD (E series – Economy); DRC (V series – Value); Hydrospun (P series – Premium); and Sontara® (A series – Advanced Performance). Put-ups include flat, quarter-fold/poly bag, interfold (single-use dispenser box), TwinTote™ dispenser box, center-pull roll, jumbo roll, GrabBox™ and CounterCase™ configurations. Ask about our private label program!

Rags and Towels

Hundreds of wiping applications can be made easier with HOSPECO's complete line of reusable wiping cloths. HOSPECO is one of the leading purveyors of woven towels and rags in the U.S. Choose fleece, terry, microfiber, reclaimed t-shirt or sweatshirt material, knits, and more for any application from heavy-duty to delicate cleaning, dusting, polishing, and even grease cleaning in the shop.

MicroWorks® Microfiber Towels & Floor Care

Microfibers and dirt have a “magnetic” relationship. Millions of tiny fibers carry a positive charge that attracts and traps negatively charged dirt rather than simply pushing it around. MicroWorks® microfiber towels are low lint, hypoallergenic and non-abrasive. Our complete line of MicroWorks® microfiber cleaning products includes wiping cloths, wet or dry mops, dust mops, and accessories. And wait, there's more: our exclusive, revolutionary SPHERGO® flat surface cleaning system featuring MicroWorks® microfiber pads. Attach the pads to a revolutionary ball-and-socket handle and repetitive motion disorders all but disappear.

TaskBrand® Sorbents

HOSPECO can help eliminate one of the leading causes of workplace injuries—slips, trips, and falls caused by liquid or oily spills. HOSPECO offers a complete inventory of solutions: Universal: pads, rolls, socks, and pillows for both water- and oil-based fluids; Oil-Only: pads, rolls, socks, booms, and pillows; Hazmat: for cleanup of unknown toxic, flammable, corrosive, and chemical spills. TaskBrand® sorbents come in a variety of substrates, colors and sizes for indoor and outdoor use. Also ask about our Rugs and Mats, including the new TaskBrand® SureGrip™ absorbent adhesive mats.

ProWorks® Gloves & Safety

HOSPECO's comprehensive line of ProWorks® disposable gloves, including nitrile, latex and vinyl, is part of our complete bundle of products for personal care and facility maintenance. The company's best-in-class solution, ProWorks nitrile, is available in a rainbow of colors and offers a far greater range of weights than many national brands, offering extra protection — more than the typical 3.5-mil disposable glove — and better value. We also offer a broad assortment of hard-working work gloves, PPE, first aid kits and more.
